

LEGO® SPIKE™ Prime — Project Ideas Gallery

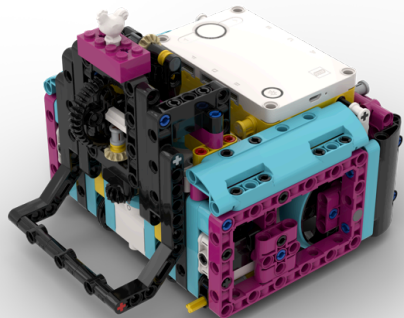

A pick-your-build board for Ryan — official robot designs + advanced builds, each with a link to instructions.

25 projects · live gallery: borenw.github.io/spike_prime_projects

1. Robot designs & build instructions

Free step-by-step PDFs from primelessons.org.

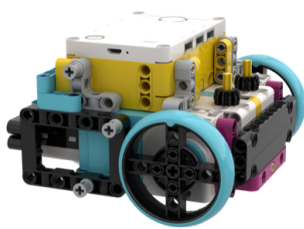

Coop Bot

Chicken-style walker

Build it →

<https://primelessons.org/RobotDesigns/instructions/CoopBot.pdf>

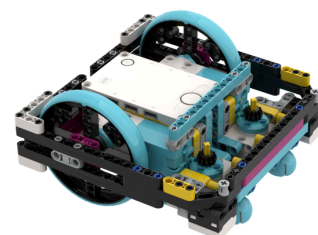

Droid Bot M (Modular)

Classic driving base

Build it →

<https://primelessons.org/RobotDesigns/instructions/DroidBotMSpikePrime.pdf>

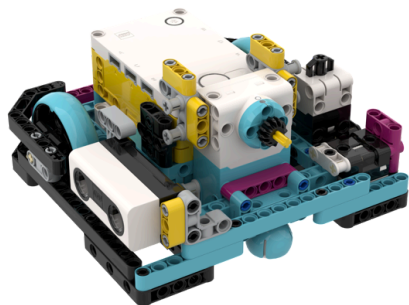

Droid Bot E (Expansion)

Uses expansion set

Build it →

<https://primelessons.org/RobotDesigns/instructions/DroidBotEBuildInstructions.pdf>

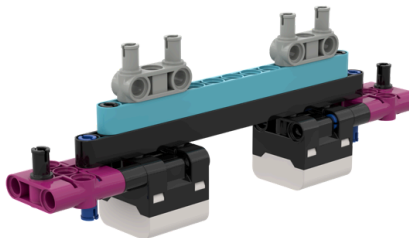

Droid Bot IV

Popular competition base

Build it →

<https://primelessons.org/RobotDesigns/instructions/DroidBotIVBuildInstructions.pdf>

ADB (Modified)

All-purpose driving base

Build it →

<https://primelessons.org/RobotDesigns/instructions/ADBModifications.pdf>

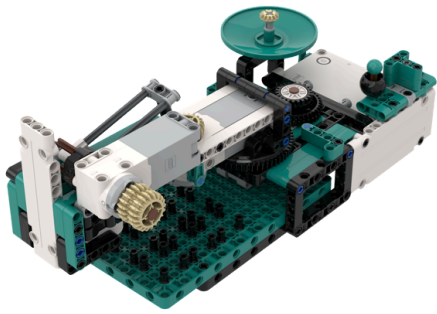

Tricky Grab and Lift

Grabber arm build

Build it →

<https://primelessons.org/RobotDesigns/instructions/TrickyGrabandLift.pdf>

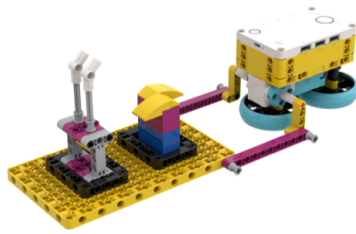

Tic-Tac-Toe Bot

Plays tic-tac-toe

Build it →

<https://primelessons.org/RobotDesigns/instructions/tic-tac-toe.pdf>

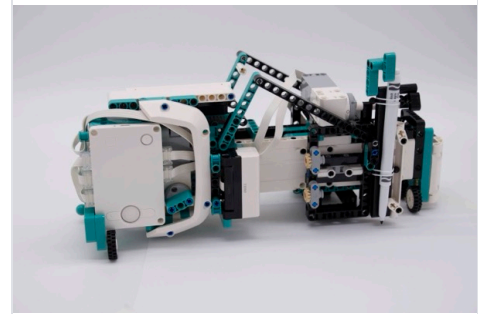

Earthquake Simulator

Shake-table machine

Build it →

<https://primelessons.org/RobotDesigns/instructions/SEarthquakeSimulator.pdf>

Print and Scan

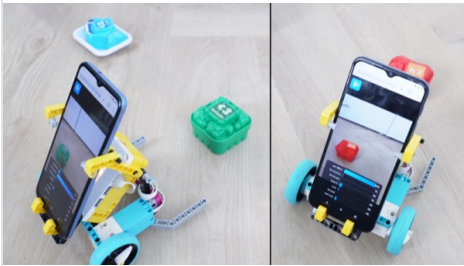

Printer/scanner build

Build it →

<https://primelessons.org/RobotDesigns/instructions/PrintandScan.lms>

2. Advanced / show-off builds

Cooler, harder projects from Pybricks — good "wow" goals to work toward.

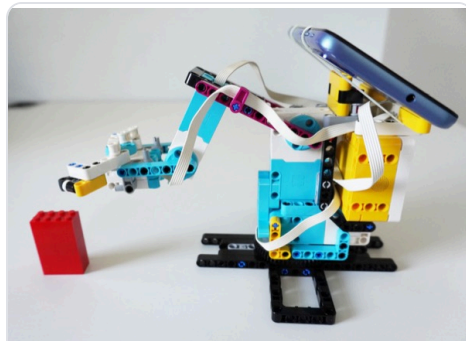

Groceries (machine learning)

Sorts objects with AI camera

Build it →

<https://pybricks.com/project/machine-learning-groceries/>

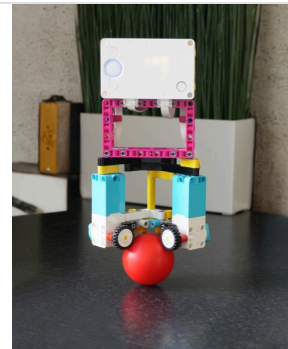

Robotic arm with vision

Camera-tracking arm

Build it →

<https://pybricks.com/project/robot-arm-camera-tracker/>

Ball balancer

Balances on top of a ball

Build it →

<https://pybricks.com/project/lego-spike-ball-balancer/>

Hub menu launcher

Run many programs from a menu

Build it →

<https://pybricks.com/project/spike-hub-menu/>

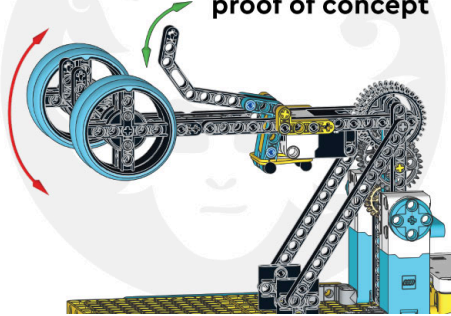

3. More builds — Prof Bricks (themed & advanced)

Themed builds (medical, animals, arms) from Prof Bricks / Benedettelli.

POWERED EXOSKELETON

proof of concept

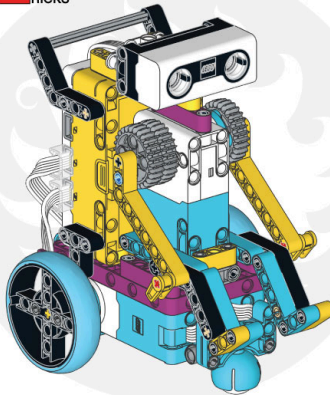

Powered Exoskeleton

Medical theme

[Open build →](#)

<https://robotics.benedettelli.com/spike-prime-powered-exoskeleton/>

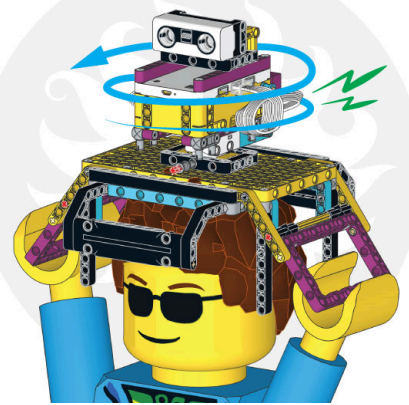

Balancing Wheelchair

Medical theme

[Open build →](#)

<https://robotics.benedettelli.com/spike-prime-balancing-robot/>

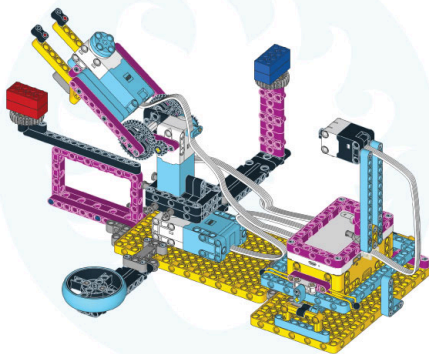

Scanner Hat

Medical theme

[Open build →](#)

<https://robotics.benedettelli.com/spike-prime-scanner-hat/>

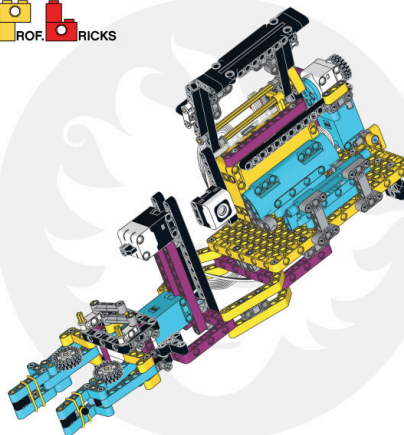

Robot Arm + Joystick

Surgical / pick-and-place

[Open build →](#)

<https://robotics.benedettelli.com/spike-prime-pick-and-place-robot-joystick/>

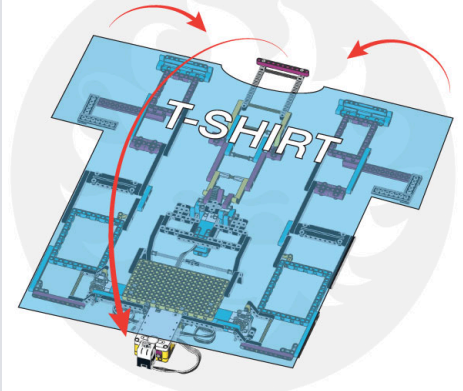

Adaptive Claw

Grabber with jaw

[Open build →](#)

<https://robotics.benedettelli.com/spike-prime-adaptive-claw/>

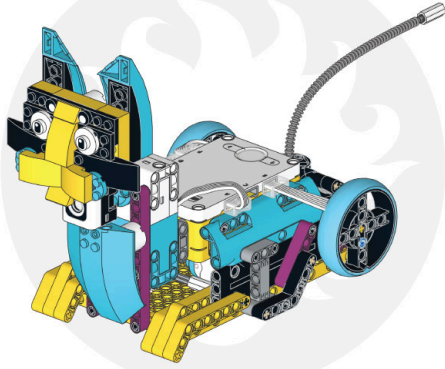

T-Shirt Folding Robot

Folds a shirt

[Open build →](#)

<https://robotics.benedettelli.com/spike-prime-t-shirt-folding-robot/>

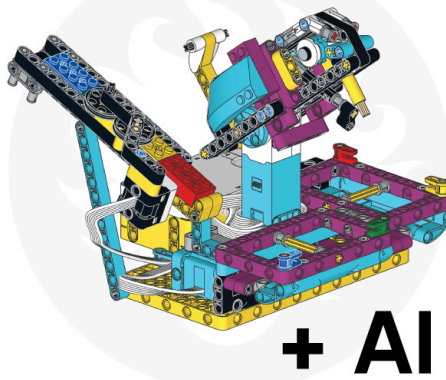

SPIKE Prime Cat

Animal build

[Open build →](#)

<https://robotics.benedettelli.com/spike-prime-cat/>

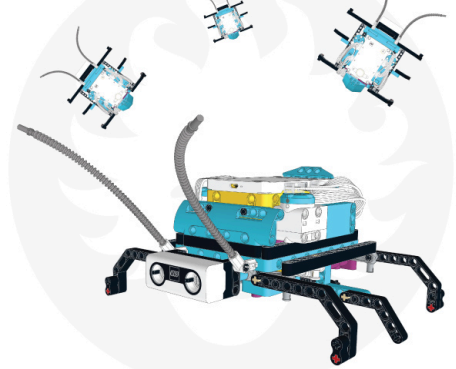

+ AI

Brick-Sorting Bird

Animal + sorting

[Open build →](#)

<https://robotics.benedettelli.com/spike-learning-brick-sorter-bird-2/>

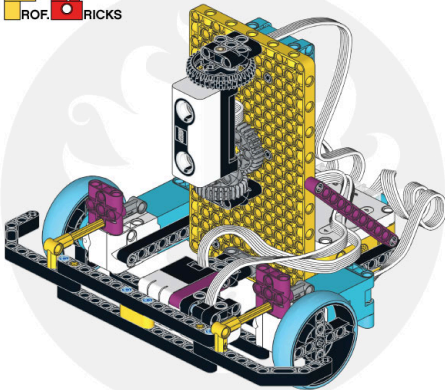

Walking Bug (Hexapod)

Six-legged walker

[Open build →](#)

<https://robotics.benedettelli.com/spike-prime-bug-hexapod/>

Guide Robot

Rolling helper bot

[Open build →](#)

<https://robotics.benedettelli.com/spike-prime-guide-robot/>

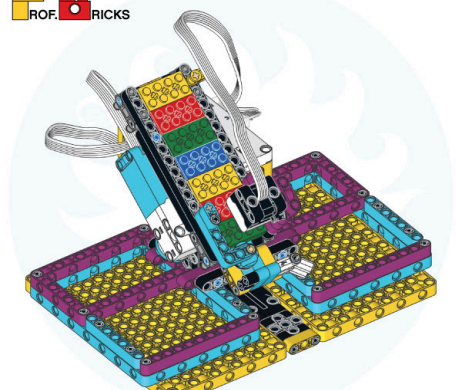

Self-Driving Car

Autonomous car

[Open build →](#)

<https://robotics.benedettelli.com/spike-prime-car/>

Color-Sorting Robot

Sorts by color

[Open build →](#)

<https://robotics.benedettelli.com/spike-prime-color-sorter/>
